

Sundial Software Corporation:

Strategically located in Madison, Wausau, Appleton, and Milwaukee, Sundial Software Corporation is a quality provider of outsourced information technology including staff augmentation, specialized consulting, project management, sophisticated software development, and small business services to Wisconsin's data processing community since 1996.

Remote Backup

All it takes is one fire, storm, sabotage, accidental deletion, or crashed hard drive, and \$25/month to backup your data off-site quickly becomes the best investment you've ever made for your business.

Analysts say as much as half of all businesses that lose all of their business-critical data in a catastrophe go out of business almost immediately, and 90% of the other businesses fold within two years.

Backing up to disk or tape requires a substantial investment in hardware and software as well as human dedication. The responsibility to rotate and take the disks/tapes off-site is often forgotten about or ignored completely.

Let us help you by automating your backup solution. We'll help you get your data encrypted and backed up to our secure Madison, WI, facility on a nightly basis.

All you need is a dedicated connection to the Internet.

Frequently Asked Questions:

How much does it cost?

Online Backup Services Base Plans		
Storage	Monthly	Annually
20GB	\$25.00	\$300.00
30GB	\$45.00	\$540.00
40GB	\$65.00	\$780.00
Additional Pricing		
5 GB Additional	\$10.00	\$120.00
Setup Fee		\$100.00

It's a small price to pay for the comfort of knowing your data is safe.

How much space do I need?

It depends on what you want to back up, but most small businesses only require 10GB of compressed backup storage.

What if I lose my data?

In the event of loss of data, we'll help you get your data quickly back into production so you can continue to run your business.
